

SONOMA CHARTER NEWSLETTER

VOLUME 1
SEPTEMBER 2023

Welcome new and returning families to Sonoma Charter's Newsletter!

New School Curriculum

We have started a new Go Math curriculum with our students in TK - 5th grade. You may have noticed the colorful and kid-friendly homework pages that students are bringing home. The Go Math curriculum also includes an online component called Waggle. Waggle will replace the online Dreambox program that the students were using last year.

Discovery Learning Program

Our middle school students have begun our new Discovery Learning Program. The middle school students now attend their elective classes on Wednesdays, and they work on the Discovery Learning projects in the afternoons, on the remaining weekdays.

TK Classroom

We have expanded our TK class from 15 - 20 students this year! In preparation for the increase in the number of students in the TK classroom we have relocated our reading intervention program to room 9 and expanded the space inside of the TK classroom.

School Health & Safety

- **Safety drills** are currently be drafted. More information will be coming regarding these drills.
- **Arrival & Dismissal Routes:** Please be sure to use the sidewalks and crosswalk to ensure community safety.
- **COVID19:** If your child is experiencing any symptoms please have your child stay home and contact the school office at **707-935-4232** to report their absence.

Interested in Volunteering?

We are happy to welcome parent volunteers to SCS! Please see Kari or Paloma in the front office with questions and to receive a volunteer packet.

Positive Behavior Support

"We have introduced our new PBIS program. This is a school-wide, positive behavior support program. Last year the staff worked together to create the behavior matrix that you will find in the new student handbook. This year we are discussing, modeling, practicing, and recognizing positive student behaviors in all areas of our campus."
